
Hiring guide — Marketing Intern

DRAFT — human approval required · HMIS-48-1789863912456

Expected outcomes

- Produce three short-form video drafts per week aligned with current TikTok trends
- Support the team in maintaining and updating the active campaign calendar
- Prepare and present a weekly learning note detailing content performance insights

Screening questions

Q1 Can you walk us through a recent short video project or TikTok draft you edited (from school, personal accounts, or work)? What tools did you use and how did you approach the edit? (C1)

Q2 What is a short-form video trend or format you noticed recently that performed really well? What made it successful for its target audience? (C2)

Q3 Tell us about a time you received constructive critique on a video draft or creative project. How did you handle the feedback, and what changes did you make? (C3)

Q4 If we asked you to test a new video hook for a product campaign next week, what kind of concept would you suggest and why? (C4)

Q5 Do you have any experience with graphic design tools (such as Canva, Photoshop, or Figma)? How have you used them to support visual content? (C5)

Q6 When you have multiple video drafts due, how do you manage your workflow from initial concept ideas to finished edit? (C1, C4)

Assessment criteria

C1 · Short-Form Video Editing — essential

Necessary to produce three weekly video drafts independently from day one.

Score	Evidence anchor
1	Lacks basic video cutting or assembly skills; unfamiliar with standard mobile editing software
2	Can produce basic clips but struggles with pacing, audio syncing, or platform formatting
3	Demonstrates solid assembly, sound syncing, and clean editing tailored for short-form video
4	Produces highly polished, creatively edited short-form videos with strong pacing and visual hooks
Not scored	Insufficient evidence; ask a follow-up.

Green flags

- Presents clear video work samples (coursework, personal channel, or project work)
- Demonstrates familiarity with transitions, sound sync, and concise mobile video editing

Concerns to clarify

- Has no video editing samples or relies entirely on static graphics
- Struggles to explain basic video editing workflows or tools

C2 · Trend & Audience Awareness — essential

Required to pitch relevant video concepts that resonate with modern TikTok audiences.

Score	Evidence anchor
1	Unaware of current platform dynamics or audience engagement triggers
2	Identifies generic trends but struggles to adapt them creatively to specific audiences or products
3	Understands current trends and can articulate why specific formats engage target viewers
4	Consistently predicts or breaks down trend mechanics and proposes creative angles to stand out

Not scored	Insufficient evidence; ask a follow-up.
------------	---

Green flags

- Articulates specific recent trends and explains why they were successful
- Understands how viewer retention works in short-form social content

Concerns to clarify

- Suggests generic or outdated social media tactics without platform context
- Cannot explain what makes short-form content engaging

C3 · Feedback & Iteration — essential

Essential for benefiting from twice-weekly Content Manager reviews and improving weekly.

DNA behaviour: Compounding Improvement

Score	Evidence anchor
1	Defensive when given creative feedback or unwilling to adjust original drafts
2	Accepts feedback passively but requires repeated guidance to implement changes effectively
3	Actively seeks feedback, understands critique, and applies updates in subsequent iterations
4	Proactively identifies personal growth areas from feedback and shares learnings with others
Not scored	Insufficient evidence; ask a follow-up.

Green flags

- Shares concrete examples of revising creative work based on mentor or peer feedback
- Views coaching as an opportunity for compounding improvement

Concerns to clarify

- Shows frustration or resistance when discussing past project critiques

- Struggles to describe how a past project improved after revision

C4 · Purposeful Content Experimentation — essential

Crucial for generating fresh concepts and running deliberate content tests across campaigns.

DNA behaviour: Shift the Needle

Score	Evidence anchor
1	Waits for explicit instructions and hesitates to propose original ideas
2	Proposes ideas occasionally but without clear connection to campaign goals or audience metrics
3	Proactively suggests trend-aware content tests aligned with campaign goals
4	Brings energetic, well-researched creative experiments aimed directly at driving engagement
Not scored	Insufficient evidence; ask a follow-up.

Green flags

- Pitches proactive ideas in interviews or portfolios with clear intent to test performance
- Shows enthusiasm for trying new creative angles

Concerns to clarify

- Prefers strict task execution over creative contribution
- Does not offer ideas when prompted about campaign scenarios

C5 · Graphic Design & Tool Literacy — preferred

Enhances visual quality of campaign assets, though templates will be provided.

Score	Evidence anchor
1	No experience or interest in visual design software
2	Basic familiarity with standard online design tools; limited typography/layout skills

3	Proficient with graphic design tools to craft clean, on-brand graphics or thumbnails
4	Advanced design portfolio showing strong branding, visual composition, and motion graphics
Not scored	Insufficient evidence; ask a follow-up.

Green flags

- Presents design samples showing attention to color, layout, and brand consistency
- Familiar with design tools like Figma, Photoshop, or Canva

Concerns to clarify

- Disregard for visual polish or basic design principles in submitted samples

Human review

- TA approval of the generated rubric criteria and interview question set prior to candidate evaluation
- Confirmation of final summer 2026 calendar dates with HR and Content Manager
- Exact start date for Summer 2026 internship term
- Standard HR onboarding logistics
- Confirm company and culture wording against current approved copy before publication.

Missing evidence is not a red flag. Preferred skills are not rejection gates. Confidence describes evidence strength, not a probability of success. A human owns every hiring decision.
